

4287-08

DIRECTIONS FOR USE:

This product must be used in accordance to the following directions by HVACR professionals only.

1. Turn off refrigeration, shut off water supply and discard ice from bin.
2. Remove all components that may be scaled with deposits.
3. Mix 3 oz. Nickel-Safe Ice Machine Cleaner per gallon of warm water in plastic container and place components in solution. Soak the components until they are free of deposits; for stubborn deposits use a soft brush to help.
4. Use above solution to clean the entire machine where deposits have collected. Then rinse cleaned areas with potable water.
5. Replace cleaned components and turn on water.
6. To clean evaporator and recirculating water system, add Nickel-Safe Ice Machine Cleaner to the water in ice maker according to the manufacturer's instructions. If none are available, use 5 oz. of the product per gallon of water in the machine.
7. Allow cleaning solution to circulate for up to 10 minutes; recirculate the solution longer to remove heavier deposits. Drain cleaning solution and flush with potable water for a minimum of 30 seconds.
8. Thoroughly rinse bin with potable water.
9. Recommended: Sanitize the machine with IMS-III Sanitizing Concentrate.
10. Return machine to service and discard the first batch of ice.

Nickel-Safe

ICE MACHINE CLEANER

Perfect For Nickel-Plated Evaporators

#1 CHOICE OF CONTRACTORS!

Nonfood Compounds A3

**Rapid Scale Remover
Highly Concentrated
For Use In Food Areas**

FOR PROFESSIONAL USE ONLY

1 U.S. Gallon (3.8 liters)

DANGER

May be corrosive to metals. Causes skin irritation. Causes serious eye damage.

PREVENTION: Wear eye protection. Wear protective gloves. Wash thoroughly after handling. Keep only in original packaging. **RESPONSE: IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor. **IF ON SKIN:** Wash with plenty of water. Specific treatment (see information on this label). If skin irritation occurs: Get medical attention. Take off contaminated clothing and wash it before reuse. Absorb spillage to prevent material-damage.

STORAGE: Store in a corrosion resistant container with a resistant inner liner.

DISPOSAL: Dispose of container in accordance with local, regional, national and international regulations.

KEEP OUT OF REACH OF CHILDREN.
